September 21, 2018

MISSION STATEMENT

- Provide health and safety communication services for emergencies and disasters in Schuylkill County, and in other areas when requested by Local or State Agencies.
- Provide health, safety and coordination services for community events.
- Maintain disaster and emergency readiness by conducting regular simulation drills and participating in national disaster simulations.
- To prepare to support a potential emergency situation, by communicating plans and procedures to local Amateur Radio Operators via the TWA Repeater Network or High Frequency (HF) bands.
- To work with local Emergency Management and other Public Service agencies to establish the infrastructure, plans and procedures to best utilize the capabilities of the Tamaqua Wireless Association.
- To train and experiment with new modes of communications so that we may provide quality communications and ensure public safety.
- Conduct FCC testing for new licenses and those wishing to upgrade.
- Provide educational services and demonstrations to local area schools and community organizations.
- To meet socially to create a positive, supportive environment for our members that promotes camaraderie and fellowship, and to advance the skills of Amateur Radio operators in preparation of applying technical and communications expertise for the good of our community.

Tamaqua Wireless Association members will serve the public unselfishly, and will only undertake activities that are 100% for the general good.
